

ACTIVITÉS HUMAINES

```
graph TD; A[ACTIVITÉS HUMAINES] --- B1[ ]; A --- B2[ ]; A --- B3[ ]; A --- B4[ ]; B1 --- C1[ ]; B2 --- C2[ ]; B3 --- C3[ ]; B4 --- C4[ ]
```

The diagram is a hierarchical tree structure. At the top is a red rounded rectangle containing the text 'ACTIVITÉS HUMAINES'. From the bottom of this rectangle, four lines extend downwards to four smaller, empty rounded rectangles. These four rectangles are arranged horizontally and are color-coded: yellow on the left, green in the second position, blue in the third position, and pink on the right. From the bottom of each of these four colored rectangles, a line extends downwards to a larger, empty rounded rectangle of the same color. This results in four vertical branches, each consisting of a small top box and a larger bottom box, all originating from the central top box.

A yellow rounded rectangle box, intended for a sub-category or activity.

A larger yellow rounded rectangle box, intended for a detailed description or notes related to the activity above.

A green rounded rectangle box, intended for a sub-category or activity.

A larger green rounded rectangle box, intended for a detailed description or notes related to the activity above.

A blue rounded rectangle box, intended for a sub-category or activity.

A larger blue rounded rectangle box, intended for a detailed description or notes related to the activity above.

A pink rounded rectangle box, intended for a sub-category or activity.

A larger pink rounded rectangle box, intended for a detailed description or notes related to the activity above.
